

SAVE

ENERGY. MONEY. PLANET.

Replace existing Lights with LED
Use up to 90% less energy with incandescent bulbs

When AC temp goes up to 24°
Power bills go down up to 24%

Choose Brushless Direct Current Ceiling Fans over Ordinary Ones

The more stars the more energy efficient
ENERGY RATING
Use Star Rated Equipments. More stars, More saving

Use of energy efficient star rated pumps

Adopt Energy Conservation Building Code for Commercial Buildings

⚡ ENERGY SAVING TIPS ⚡

Switch off the lights when not in use. Enjoy the daylight! | Avoid frequent power cuts by saving one unit a day. | Select Motors/pumps for loads with optimum efficiency | Do your bit - Conserve, don't burn up! | Use Ceiling fans with AC | Put AC /Refrigerator on power saving mode Be energy friendly, switch to LEDs ! | Energy saved is energy generated |

ENERGY CONSERVATION WEEK FROM 14/12/2020 TO 19/12/2020

LAUNCH OF: 1) ENERGY CLUBS IN GOVT SCHOOLS

2) CONVERT GOVT SCHOOLS TO MODEL ENERGY EFFICIENT SCHOOLS
