

Net Metering Facility

- Consumer is enabled to inject surplus power in to grid and at the settlement period Elect. Dept. will buy surplus power at tariff approved by JERC.
- Consumer will be self dependent for his requirement due to net metering facility.

Status on Net Metering so far....

- Government Installations – 248 kW released (including Raj Bhavan)
- Private Installations – Potential of 361 kW (Not coming forward post provisional approvals by the Electricity Department)
- Under Process – 1257 kW (Govt Installations) (Compliances pending from Prosumer side)

Solar Energy Policy 2017 issued by Goa Energy Development Agency (GEDA) with due approval of Government of Goa
